- Bethlehem Steel Company at Sparrows Point: The WITNESS stated that Fritz Sauer had 40 cubic yard waste containers placed at Bethlehem Steel and that he disposed of the waste from these containers at the Sauer Dump located off of Lynhurst Road. The WITNESS stated that this waste included a green-type paint that glowed in the dark. The WITNESS stated that the waste also included steel, which was painted with this green substance. The WITNESS stated that the green paint was in 5 gallon paint cans, and he recalled that the paint contained zinc.
- General Motors Corporation: The WITNESS stated that General Motors Corporation disposed of defective vehicle motors at the Sauer Dump located off of Lynhurst Road. The WITNESS stated that when the motors were brought to the Sauer Dump, an employee from General Motors would be present. The WITNESS stated that the General Motors employee required Fritz Sauer to push a hole in the engine block. The WITNESS stated that this was done to prevent anyone from using the motor in a vehicle. The WITNESS stated that by pushing a hole in the engine block, it would render the motor useless. The WITNESS stated that he did not know the names of the General Motors employees who were present at the Sauer Dump.

The WITNESS stated that he was unable to recall any additional specific names of companies whose waste was disposed at the Sauer Dump located off of Lynhurst Road. The WITNESS agreed to note any other names that he recalled, and contact me with any additional information. The WITNESS stated that because the Sauer Dump has been closed for many years, he could not recall at the present time all of the companies whose waste was disposed at the Sauer Dump.

The WITNESS further explained that Fritz Sauer "scraped out" all metals that had any value and that he would pick through the waste before he buried the waste on the Sauer Dump.

When asked the names of any other individuals who may have information regarding disposal activities at the Sauer Dump located off of Lynhurst Road, the WITNESS stated that most of the individuals who worked at the Sauer Dump are deceased. The WITNESS stated that he was unable to recall any specific individuals.

The WITNESS stated that when the Sauer Dump located at Kane Street and North Point Road was closed, all of the waste that Fritz Sauer was accepting at that dump was disposed at the Sauer Dump located off of Lynhurst Road. The WITNESS stated that the Sauer Dump located on Lynhurst Road was very active for approximately six years after the Sauer Dump located at Kane Street and North Point Road was closed.

The WITNESS was shown a list of the following companies and asked if he had any knowledge of any of these companies disposing of waste at the Sauer Dump.
